## TO THE QUALIFIED ELECTORS OF THE CITY OF BAY ST. LOUIS:

Notice is hereby given that there will be circulated a petition, or petitions, requesting the recall of Warren J. Carver, Mayor of the City of Bay St. Louis, said petition to be in compliance with Sections 3774-75-76-77-78-79 of the Mississippi Code of 1942; and that said petition to be as follows:

TO THE MAYOR AND COMMISSIONERS OF THE CITY OF BAY ST. LOUIS:

Gentlemen:

We, the undersigned qualified electors of the City of Bay St. Louis, Mississippi, do respectfully request that you call an election to be held in said City, as provided by law, for the recall of Warren J. Carver, Mayor of the City of Bay St. Louis, and the reason, or reasons, for requesting said election for recall being as follows, to-wit:

(1) That the Mayor, in conjunction with the former Tax-Collector, tried in every way to stop the State Auditors from auditing the City books and revealing to the taxpayers and public the alleged \$90,000.00 shortage of former City officials.

(2) That the Mayor, being dictated to by the Slot Machine Syndicate, sponsored and caused to be passed an illegal tax on slot machines, contrary to the opinion of the Attorney General of the State of Mississippi.

(3) That the Mayor has refused to cooperate with the City Commissioners in reducing the high taxes, and refused to review the Assessment Rolls of the City, stating the rolls were "all right, but I am going to vote against them."

(4) That the Mayor, instead of cooperating for the improvement of the City has daily and weekly slandered the City Commissioners and misrepresented the facts to the public, causing unfavorable publicity to the City.

(5) That the Mayor has violated the oath of his office in that he has failed and refused to try certain local law violators against whom charges have been made.

(6) That the Mayor has failed, neglected and refused to account to the City for the fines and penalties collected by him as Police Justice, as required by Ordinance, settlement being made only upon demand by City Auditor.

(7) That the Mayor has failed, neglected and refused to keep a Docket, showing the disposition of cases in his Court, etc., as provided by Ordinance.

(8) That the Mayor illegally withheld from the City \$189.00, which he was short in his meter deposit collections in the Natural Gas System during the time he served as Tax Collector, after the resignation of the former Tax Collector. Settlement was made only upon demand by City Auditor.

(9) That this Mayor has converted certain files and filing cabinets, the property of the City, to his own personal use and removed them from the City Hall.

(10) That the Mayor guided by the dictates of the Slot Machine Syndicate and other racketeers, in his lust for POWER AND CONTROL, has failed and refused to cooperate for the betterment of the City.

## BROADWAY AND MAIN STREET If the Brakes Don't Work Just Hit Something Cheap

A fellow tried to sell me a helicopter the other day. He told me I could hop from the roof of my house to my place in Westchester in 20 minutes, and added that it was as easy to drive as a car. I told him I wasn't interested because I couldn't drive a car. How come? Didn't I ever try and learn? Just once. And here's what happened. . . .

One day several summers ago, my wife said, "I wish you'd learn how to drive. Every time you want a paper or a pack of cigarettes I've got to stop what I'm doing and chauffeur you into the village."

"Okay," I said, "if you'll play teacher."

Next morning I crawled into the car beside Eleanor. "Just turn this figger over," she began, "push in this dingus, pull out this doohickey, step on this wing-doodle, press down on this thing—am I to b— and you're all set to go."

"What's this gizmo?" I asked.

"The hand brake," she said. "You throw it on quickly in case of emergency."

"What happens if the brakes don't work?"

"Hit something cheap," advised my spouse.

A MOMENT LATER the car went hiccupping down the road. Then for a mile it went smooth as you please. A feeling of confidence came over me, the same feeling all new drivers get just before the lights go out. I pressed down on the gas.

"The pistons seem to be knocking," I said professionally.

"Pistons nothing," said Eleanor. "Those are my knees."

Everything went fine until we got to the traffic light in the village. I forgot to press the hickie-madoodle on the gillooley and the car stalled. The lights changed from green to red, and from red back to green. A cop came over.

"What's the matter?" he asked.

"Haven't we got any colors you like?"

After switching the radio on and off, I suddenly pressed the right thing. In the order of the way it happened, I grazed the cop, skidded through the safety zone, clipped the fender on a bus, and came to rest with my bumper against a fire plug. The cop stalked over, took a handkerchief out of his pocket and dropped it in front of the car.

"Lookit, Gene Autry," he said. "I wanna see you do that all over again, and this time pick up the handkerchief with your teeth."

Eleanor gave him the smile that used to make the front cover of "Life." "He's learning to drive," she said.

"No kidding?" said the cop.

"How long is this class going to last? Some other drivers would like to see this road when Sunny Boy gets through with it."

"What did I do wrong?" I asked the officer.

"Didn't you hear my whistle? Didn't you see my signal?" he demanded.

I shook my head.

The cop sighed. "I'd better go home," he said. "I don't seem to be doing much good around here."

I THREW THE CAR into reverse and backed away from the fire plug.

"If you're going to drive much," yelled the cop, "I'd have the car painted red on one side and blue on the other; so the witnesses will contradict each other."

I had only one more mishap getting home. I scraped a guy's fender. He was pretty nice about it. "It's my fault," he said. "I saw you coming. I should have driven into the fields and avoided you."

There are two stone posts flanking the drive which leads up to our home. I got past them without a scratch, but without the rear bumper. That did it.

Since then, I've never been behind a wheel. When Eleanor and I go driving I sit in the back seat and read the Burma Shave signs. The only concession I've made to the Automotive Age is to learn how to fold a road map.

## HOME AGENT NOTES

### Plan Location Of Home Equipment

By MISS MADGE ALLRED

Are you adding a new sewing machine, a new electric mixer or some other piece of household equipment new or sometime soon? When you do, plan a place for it where it will give the most use.

Many home articles like this are portable but are often large or heavy enough for a homemaker to neglect using them when she must move them to a convenient place.

Before you buy such equipment, plan a permanent place for it where it will be used. If you're lucky and receive such a Christmas gift, put it in the place where it will make your work the easiest.

**CHRISTMAS DECORATIONS**  
You will be planning your Christmas decorations before much longer. If you are including holly, here's an easy way to keep it from shedding.

Spray holly twigs with a .01 percent solution of naphthalene-acetic acid. The leaves will remain firm after the twigs are dead and dried out.

Preserving color in Evergreens. Soaking cedar or pine in a strong solution of sulphate of ammonia (ordinary commercial fertilizer) will preserve their color. Use 1 quart of fertilizer to 2 gallons of water. This is a nice way to test a Christmas tree. Let it stand in the solution overnight or for 2 or 3 days.

To Preserve Magnolia Leaves use 2 parts water and 1 part glycerine. Put stems only in the mixture. Let stay 2 weeks. Take out, then they will last indefinitely.

## FARM AND CITY LIVING

The level of living of American farm families has risen considerably in recent years, but still is below that of city families as a whole, according to the USDA Bureau of Agricultural Economics.

Farm families have less cash to spend than city families, less adequate medical care, fewer household comforts and conveniences, and less educational opportunities for their children.

If homes are rated by such facilities as running water, electric lights, bathrooms, modern installed cooking arrangements, farm homes rate only 30 percent of the national average compared to 115 percent of city and suburban homes. At least two-thirds of American farm homes were still without running water at the most recent count.

Physicians, dentists and hospitals

tend to concentrate in cities. The farther a family lives from the city, the less its share of these health facilities. For each 100,000 people in most rural counties in 1946, there were only 29 physicians, 8 dentists and 20 hospital beds. In contrast, most urban counties had 120 physicians, 64 dentists and 396 hospital beds for each 100,000 people.

As for education, in most rural counties only 8 percent of the people 25 years or older have completed high school compared to 27 percent in most urban counties. A much larger share of the money spent on education goes to the city or suburban pupil than to the rural pupil. The expenditure for each pupil in rural areas is estimated at 82 percent of the national average compared to 116 percent for pupils living in or close to cities.

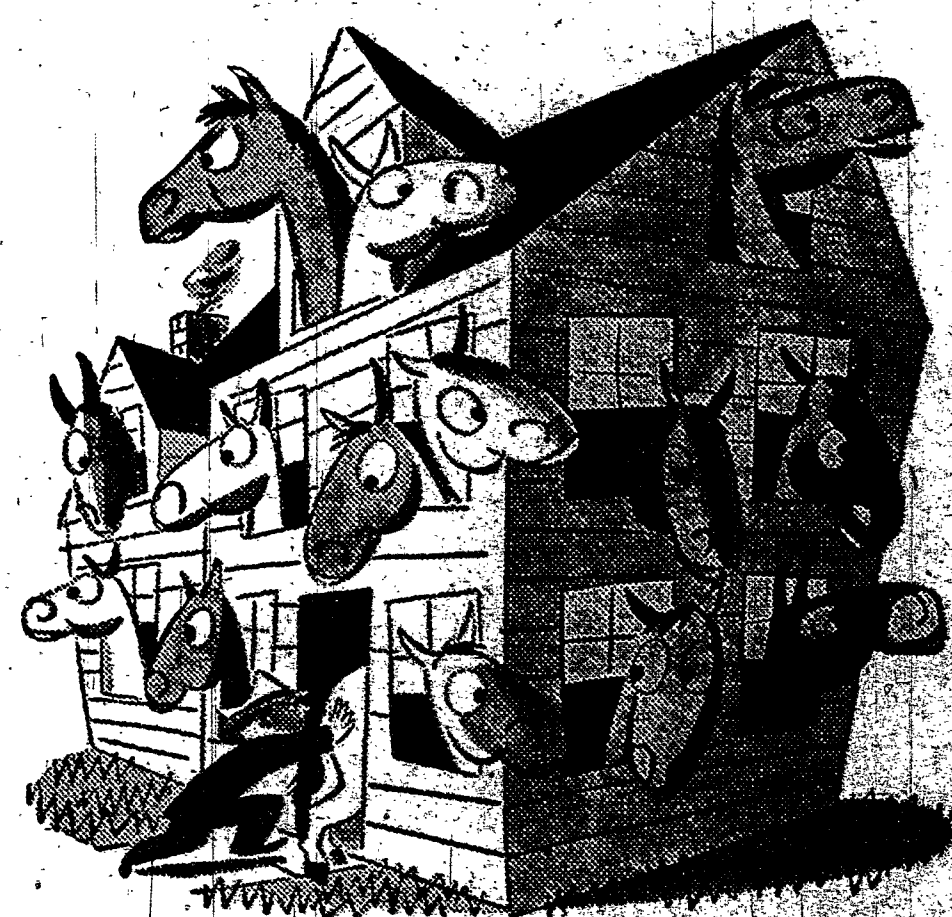

## ROSES

Give roses in north Mississippi a protective covering of 12 inches of hay, leaves or a mound of soil around each plant. This is not necessary in south Mississippi. Do not prune bushes now except to remove dead wood. Remove all dead rose leaves from the ground in the rose garden.

## Two Different Services Help Children Of State

Of the four services being rendered our people by the State Welfare Department in cooperation with the Federal Security Administration, two of them sound somewhat alike, namely, Aid-to-Dependent Children and Child Welfare Services. Aid-to-Dependent Children means money grants to families with dependent children. The Federal Law defines a dependent child as a child under eighteen years of age living with one parent or other relative and in need of the necessities of life such as food, clothing and shelter.

Child Welfare Services renders whatever service is necessary to children in distress and in need of a friend. One such service is foster home care for children that do not seem to fit in anywhere else. Several counties are cooperating in this service. Foster homes have to be approved by the State Welfare Department and children placed there receive very careful supervision.

## Uncle Horace filled his house with horses

He figured to run his house by horse power instead of electric power. No more electric bills for him!

So he hitched Dobbin to the washing machine, and old Nell to the refrigerator. Bought another nag for the vacuum cleaner and more for the other jobs.

Poor Uncle Horace! All he got was a hate for horseflesh and a hatful of debts.

But a great love for his electric bills!

And why not? Electric power is about the handiest, quickest, easiest way to get work done. And about the cheapest... what else can you buy that does so much, yet costs so little? (An average family in a day uses electric power equal to the work of 5 or 6 horses—and buys it for a few pennies.)

That's good business for anybody who has home work—almost any kind of work—to get done. Business-minded electric companies like quality made in a hurry, they're working on it now. By making it so easy to make the best of a family budget.
